

# 3M Science Fan Journey

## 7,200 Yards of 3M Science

*Fans! Applause! Unforgettable moments!*

At this year's 3M Open, we'll be featuring tomorrow's science, today – showcasing what's next for the technologies that will help connect, protect, heal and inspire us. We invite you to explore the many physical experiences on course, as well as the digital content inside the 3M Science Dome. Of special note is the 360° film "The Impossible, Possible World" celebrating humanity's ability to overcome the impossible.

1

### **3M™ Dichroic Film Butterfly Garden** *Located at main entrance*

Here you'll find a fitting and stunning artistic nod to MN nature created using 3M Science. These vibrant, color-shifting butterflies make for a perfect selfie backdrop.

2

### **3M™ VHB™ Hangouts** *Located at the 3M Science Dome*

Floating chairs? Find out how 3M Science is giving you a unique "hang" to watch golf.

3

### **The Impossible, Possible World** *Located inside the 3M Science Dome*

This 360° feature film, running every 15 minutes inside the 3M Science Dome, celebrates how humanity can overcome the impossible.

4

### **Loudest Drive Competition featuring 3M™ Hearing Protection** *Fan Village*

If you're looking for a little (and loud) competition, make your way to the Fan Village and challenge a fellow guest to a unique twist on a golf driving contest. Hearing protection suggested.

## DO'S & DON'TS

### DO

- ▶ Check out the FANUC® Robot & 3M™ Abrasives at the 3M Science Dome. Watch a robot create a one-of-a-kind golf tool for you to use during your next round.

### DON'T

- ▶ Miss the golf club wind chimes near the main entrance!
