Competition Support: ShotLink Mobile Spotters (SMS)

The Competition Support Committee is made up of two positions (ShotLink Mobile Spotters (SMS) and Walking Scorers) that offer a unique inside-the-ropes experience. As ShotLink transitions into its most recent development (ShotLink 2.0), the Location Based Operator and Spotter roles have transitioned into a merged committee referred to as ShotLink Mobile Spotters (SMS). The new committee is essential to ShotLink being able to collect and distribute real time scoring and statistical data. ShotLink will now feature a PGA Tour On-Course Scoring Tech on each hole.

Under the leadership of the Scoring Tech, the ShotLink Mobile Spotters will help locate and flag shots that miss the fairway/green, assist with ball flight from the tee, and relay pertinent information to the Scoring Tech such as penalty situations and obstructed shots. This new role will help deliver real-time distance data and statistics to be immediately computed and distributed to scoreboards, TV, internet, gaming, and mobile applications.

Volunteers should have a basic knowledge of the game of golf and a commitment to timeliness, accuracy, and attention to detail. Effective teamwork and communication are essential in this role. All ShotLink Mobile Spotters should be physically able to walk around their assigned hole for the duration of their shift in potentially varied weather conditions. Quickly locating shots not in view for the Scoring Tech or Camera System is a key function of this role as it is vital to be able to gain accurate insight into the location of each shot.

Walking Scorers must have the physical ability to easily keep pace with their group across all 18-holes without a break and in varying weather conditions. Scorers should be comfortable using a handheld digital device to record each shot, as well as the voice radio with a headset that allows for constant communication with the ShotLink staff.
