

# 3M Science Fan Journey

## 7,468 Yards of 3M Science

*Fans! Applause! Unforgettable moments!*

Being back together for a common cause has never felt better. At this year's 3M Open, an enhanced fan experience is designed to show how 3M Science is helping us all safely return to events, work, and our communities. We invite you to explore the grounds of the 3M Open to experience how 3M Science is not only helping to bring a PGA TOUR tournament to life, but helping our world return.

1

### **3M™ Dichroic Film Butterfly Garden** *Located at main entrance*

Here you'll find a fitting and stunning artistic nod to MN nature created using 3M Science to create vibrant, color-shifting butterflies. You might even get to take home one for yourself.

2

### **3M™ VHB™ Hangouts** *Located near Holes 4 & 7*

Floating chairs? Find out how 3M Science is giving you a unique "hang" to watch golf.

3

### **Agar Art using 3M™ Petrifilm Plates** *Located in Fan Village*

At 3M, we think science is beautiful. Find out how 90 of the top 100 food brands rely on 3M Science to help keep their production lines safe. A perfect blend of art and science.

4

### **Loudest Drive Competition featuring 3M™ Hearing Protection** *Fan Village*

If you're looking for a little (and loud) competition, make your way to the Fan Village and challenge a fellow guest to a unique twist on a golf driving contest. Hearing protection suggested.

## DO'S & DON'TS

### DO

- ▶ Check out the FANUC® Robot & 3M™ Abrasives at the 3M Science Dome. Watch a robot create a one-of-a-kind golf tool for you to use during your next round.

### DON'T

- ▶ Miss the Wrapped in Happiness art installation! A field of happiness awaits you in the Fan Village, thanks to over 90 unique and inspirational moments of "happy" and some 3M Science.
